

Nurse researchers as key drivers of change

Network Nursing Research Northern Netherlands (NVONN)

Thursday 6th October 10.00 a.m.

Nursing Science and Network

- 1980 Nursing Science at the University Maastricht University
- Impact of nursing research
- Network Nursing Research Northern Netherlands (NVONN)

Aim

Network Nursing Research Northern Netherlands (NVONN)

To create an open network where researchers can collaborate, develop and exchange knowledge, and support each other with (practical) questions for the benefit of nursing care, nursing professional development and nursing science.

Goals

1. To enlarge the visibility of nursing research - in order to promote and safeguard knowledge sharing.
2. To connect - by directly link nursing research to themes that are important to care receivers and professionals in relation to quality of care.
3. To initiate and support regional applied research - for bachelor, master, and PhD nursing students.
4. To contribute to healthcare - by embedding results of nursing research in care processes.

Organizing team

NAME	SETTING	FUNCTION/ROLE
Annemieke Brouwers	University Medical Center Groningen	Network support
Jessica Cramer	Scientific Institute Martini Hospital Groningen	Clinical epidemiologist
Evelyn Finnema	University of Groningen, University Medical Centre Groningen	Professor in Nursing Science
Lisanne Hut	University Medical Center Groningen and University of Applied Sciences Groningen	Registered nurse, lecturer, PhD candidate
Annette Keuning	University of applied sciences Leeuwarden and University Medical Center Groningen	Lecturer, PhD candidate, researcher
Rianne van Melzen	University Medical Center Groningen	Registered nurse and PhD candidate
Han de Ruiter	University of Applied Sciences	Professor
Henriëtte Smid	Scientific Institute Martini Hospital Groningen	Clinical epidemiologist
Gonda Stallinga	University of Groningen, University Medical Centre Groningen	Senior researcher

The members of NVONN

- Currently, almost 200 members
- Mainly presenting the northern provinces of Groningen and Friesland
- Majority employed in hospital (63%) or at a university of applied sciences (12%)
- 28% registered nurses, 18% nurse practitioners, 17% nursing researchers, and 9% lecturers at a University of applied sciences

First achievements

- Website NVONN (www.nvonn.nl)
 - Agenda of upcoming events and congresses
 - News related to research
 - ‘Meet the members’
- Research meetings
 - Next meeting: 30 November 2022 16.00 – 17.30

LET'S TALK

- About your experiences with networks
- About best practices regarding networks
- About how to approach and enthuse nurses and nursing researchers from settings not yet involved
- About tips and tricks in keeping a network alive
- About anything regarding this topic
